Dubai Crocodile Park

Dubai, United Arab Emirates | Adventure

Tour Description

The **Dubai Crocodile Park Tour** is supposed to be an interactive, as well as an educative, experience where the guests are introduced into the close vicinity of one of nature's fascinating creatures. Situated right in the heart of Dubai, it houses more than 250 Nile crocodiles and offers glimpses of these grand reptiles in a safe and naturalistic environment. Dubai Crocodile Park Tour targets all age groups, thus being an ideal family outing for tourists and animal lovers. On a walk through the park, one can see how crocodiles bask in the sun or just glide at various enclosures underwater. Trained guides will provide informative comments on the life cycle of these ancient predators, their behaviour, and how conservation efforts are trying to save these animals and help ecosystems.

The Dubai Crocodile Park Tour includes feeding sessions as one of the major highlights, whereby you are exposed to the visibility of the crocodiles in action, showing their powerful jaws and moving swiftly. This is an interactive experience, giving you the chance to learn how such reptiles hunt and continue surviving in the wild. The park has dedicated areas removed for kids in understanding wildlife preservation, with a series of fun educational games that allow kids to appreciate nature. Apart from the crocodiles, the park contains topical flora and fauna of the region, which also makes the **Dubai Crocodile Park Tour** quite comprehensive in nature. One can sit around and relax in the picnic areas of the park or stroll around the lush green landscapes that surround the reptiles' enclosure, making it a serene and refreshing getaway from all the hustle-bustle of the city. From embracing wildlife conservation to seeking an experience of a lifetime, the Dubai Crocodile Park Tour has something for each and every one of us in Dubai, blending adventure with education on one trip.
