## Singapore Oceanarium Aquarium

[Singapore](#), [Singapore](#) | Nature and Wildlife

### Tour Description

At the Singapore Oceanarium, you may go on an extraordinary aquatic experience where the ocean's treasures come to life through interactive storytelling, cutting-edge exhibits, and engaging marine science. You can go back in time as you explore areas that exhibit the ocean's spectacular past, vivid present, and bright future. With stunning animatronics and fossil displays, you may see life-sized ancient giants like the Dunkleosteus come to life. One of the world's biggest Kreisel tanks holds thousands of bright Moon Jellies that float elegantly. Underwater, it's a stunning sight. Visit Singapore's beautiful coastal habitats, where land and sea mix. Then, head into the deep sea to observe a dramatic whale fall, which is a vibrant underwater sanctuary with unique marine species. Each zone takes you on an amazing journey to explore how beautiful, intriguing, and crucial our oceans are.
