### The Green Planet Dubai

[Dubai](#), [United Arab Emirates](#) | Nature and Wildlife

#### Tour Description

If you are looking for an escape into the heart of nature while in Dubai, **the Green Planet Dubai Tour** is bound to give you an experience that's as immersive as it gets. This bio-dome is situated in City Walk and is a home to more than 3,000 species of plants, animals, and birds in a replicated magic ecosystem of a tropical rainforest. It would be a perfect destination for families, nature lovers, and all those interested in exploring biodiversity.

Your **Green Planet Dubai Tour** begins with a walk into an indoor majestic forest. You will get to see the four distinct layers of the rainforest: the Canopy, Midstory, Forest floor, and the flooded rainforest. Each part has its assembling collection of flora and fauna. From the parrots that fly free overhead in a kaleidoscope of color to tree sloths showing off their ability to leisurely climb trees, each corner has just one more wonder waiting. Among all the highlights, one must prime the enormous indoor tree, which is supported as the largest man-made and life-sustaining tree in the world and acts as the central structure of the dome.

This tour is an educational experience for children and adults alike to be made aware of the salience of conservation and sustainability with the interactive exhibits on the tour. You may learn up close a variety of reptiles, amphibians, and fish, or learn about the sensitive balance that exists within the tropical ecosystem. Those looking for more adventure might enjoy how this tour provides interaction with animals like sugar gliders and tamarin monkeys. Be it short or long, a Dubai trip is incomplete without a Green Planet Dubai Tour. It will take you away from city hustle and bustle, letting you enjoy a cooling educational experience as this connects you with the beauty and intricacy of the natural world in a tropical setting.
